Aeroquip® by Danfoss

DataCryo DC394 hose

As data centers evolve to handle increasing processing demands, liquid cooling is the innovative solution for maintaining optimal processor temperatures. The Aeroquip by Danfoss DataCryo DC394 hose is an advanced EPDM solution designed for the safety and ease of use required by these emerging applications.

Engineered for modern data center environments, DC394 is an ultra-flexible source line hose that enables easy installation and ensures leak-free coolant delivery to server racks.

Features

- UL94 V-0 flame resistance rated cover
- Zinc and calcium free peroxide-cured EPDM tube
- Low coefficient of friction for improved pressure drop and overall liquid cooling system efficiency
- Best-in-class bending radius and lowest force to bend for improved flexibility and easy installation
- Halogen-free rubber formulation that reduces corrosion risk while supporting environmental sustainability

Markets/Applications

- Data centers
- Electronic component cooling
- Cryptocurrency mining
- IT thermal management

Order Fulfillment

- Made to Stock
